INDEX TO VOLUME 5

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and for articles in society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S respectively.

PAGE

Abnormalities: See also under names of diseases and organs
- another case of Marcus Gunn's phenomenon 970
- congenital anophthalmos with orbitopalpebral cyst *884
- familial congenital aniridia 297
- family affected with keratoconus and anterior polar cataract 969
- interpretation of a complex of congenital anomalies as caused by fixation of fetal conditions 129
- persistence of hyaloid artery and canal of Cloquet 970
- teratogenic ocular anomaly 132

Abraham, S. V.: Heterophorias; new test for vertical phorias, with observations on patients with presumably negative histories *766

Abscesses, multiple abscesses in both optic nerves caused by streptococcic sepsis ... 659

Accommodation *1
- for distance 820
- investigation into effect on eyes of occupations involving close work 481
- physiologic and clinical value of chromatic aberrations of eye 479
- weakness of *362

Adenocarcinoma of lacrimal gland 485

Adrenaline: See Suprarenal preparations

Agatston, S. A.: Unusual case of medullated nerve fibers with amblyopia 506

Albinos, implantation of dark substances into lids of albinos 655

Alcohol injections in spastic entropion 304
- treatment of painful eyes with vision by means of orbital injection of moderately concentrated alcohol 985

Amblyopia: See Blindness

Amblyoscope, test types for estimating with Worth's amblyoscope the vision of malingerers *918

American Board for Ophthalmic Examinations 646, 804, 967

Anesthesia, rectal narcosis in ophthalmic surgery 473

Angioma venosum of orbit 833

Aniridia: See under Iris

Anomalies: See Abnormalities; and under names of diseases and organs

Anophthalmos, congenital, with orbitopalpebral cyst *884

Apparatus: See also Instrument

Aqueous Humor, circulation of 835
- drainage of intra-ocular fluids 480
- formation of Ehrlich line 808
- intraocular pressure and drainage of aqueous humor 818
- particulate size of intravenously injected dyes in serum and aqueous 819
- pathology of anterior chamber 969

Arachnodactylia: See under Fingers

Arachnoiditis, chiasmal syndrome produced by chronic local arachnoiditis; report of 8 cases *558

Arachnoiditis—Continued PAGE
- chronic cisternal arachnoiditis producing symptoms of involvement of optic nerves and chiasm; pathology and results of operative treatment in 4 cases *334

Argyll Robertson Pupil: See under Pupil

Arterioslerosis, significance of arteriosclerosis on retina, choroid and optic nerve in pathogenesis of retinitis albuminurica 141

Artery, embolism of central retinal artery .. 677
- persistence of hyaloid artery and canal of Cloquet 970
- treatment of embolism of central retinal artery 659

Aspergillus, two cases of granuloma invading orbit due to aspergillus 477

Astigmatism, contact glasses for high astigmatism 149
- unaided vision of astigmatic eye 982

Atrophy, Optic: See under Nerve

Atropine, synergistic action of atropine and epinephrine on intrinsic muscles of eye. *212
- treatment in atrophy of optic nerve 986

Automobile drivers, psycho-visual requirements 138

Azotemia: See under Blood

Bacterium granulosis in trachoma 312, *527

Bag, an emergency kit for ophthalmic examinations and treatment 666

Barkan, H.: Squint; its physiopathology and surgical treatment *691

Barkan, O.: Squint; its physiopathology and surgical treatment *691

Beard, H.: Postcycloplegic test *943

Beaumont, J. H.: Contact glasses for high astigmatism 149

Bedell, A. J.: Stereoscopic photographic demonstration of tissue formations on optic nerve head 991

Bjerrum, sensitive methods for detection of Bjerrum and other scotomas *224

Blaauw, E. E.: Allvar Gullstrand 294

Blastomycosis, intra-ocular *581

Blatt, N.: Weakness of accommodation ... *362

Blepharochalasis; Blepharoplasty; Blepharospasm: See under Eyelid

Blindness, causes of blindness among Chinese 297
- experimental study of quinine amblyopia. 135
- unusual case of medullated nerve fibers with amblyopia 506

Blood, alkaline reserve of blood and intraocular tension 974
- calcium in diabetic retinitis 309
- cholesterol content in glaucomatous patients 808
- experimental hyperazotemia and ocular changes 136
- pressure, differentiation and significance of certain ophthalmoscopic pictures in hypertensive disease 811
- sugar, relation between hyperglycemia and glycosuria in experimental diabetes and in clinical cases with ocular changes .. 135

Book Reviews:
- Acta of the Japanese Ophthalmological Society, October, 1930 839
- Administration Report of Government Ophthalmic Hospital, Madras, for Year 1929; R. E. Wright 683
- Atlas of Stereo-Photographs of Anterior Segment of Eye; R. von der Heydt and H. S. Gradle 998

calcium in relation to cataract; in vitro .. *856
calcium in relation to cataract; in vivo .. *868
chemical studies of lipids of normal animal lenses, cataractous human lenses and blood of patients with cataract ... *354
colored crystals on anterior surface of lens affected by senile cataract 653
electric cataract 302
extraction of cataract; report of a third hundred successive extractions in capsule after preliminary subluxation with capsule forceps *575
extraction of cataract with conjunctival bridge 679
family affected with keratoconus and anterior polar cataract 970

Cataract—Continued PAGE

frequency and shape of anterior axial "nahtpunktierung" and anterior axial embryonic cataract 139
from exposure to roentgen rays 681
intra-capsular cataract extraction at Moga, Punjab 975
intra-capsular cataract extraction, its present status *93
intra-capsular extraction of 976
leaf-shaped or rosette-shaped cataracts .. 303
lens capsule in intracapsular extraction of cataract 304
management and treatment of incipient cataract 139
operation 814
operation, modified Barraquer 498
operations in extreme old age 814
orange discoloration of anterior segment after unsuccessful cataract operation ... 976
pathology of human cataract; weight relations of human lenses 302
senile: use of parathyroid extract *754
short study of complications of cataract extraction in Egypt with some practical suggestions 653
test for retinal function in cataractous patients *636
traumatic zonular cataract 148
